

AMERICAN JOURNAL OF CLINICAL BIOFEEDBACK
Index to Volume 4

Barr, Joseph E. Meeting of Physiology and Phenomenology	32
Barth, Jeffrey T. and Earl J. Downs. Post-Herpatic Neuralgia: A Biofeedback Case Study	104
Daniels, Lloyd K. Presidential Address	4
Ferguson, Donald C.E. Biofeedback and Behavioral Medicine: Prospects for the 1980s	8
Gonik, Uri L., Irving J. Farrow, Monty L. Meier, Giselle S. Ostman, and Lynda D. Frolick. Cost Effectiveness of Behavioral Medicine Procedure in the Treatment of Stress-Related Disorders	16
Hiebert, Bryan. Demographic Differences in Frontal EMG Training	131
Kaplan, Norman M. The Control of Hypertension: A Therapeutic Breakthrough	137
Keefe, Francis J., Barry Schapira, Redford B. Williams, Charles Brown, and Richard S. Surwit. EMG-Assisted Relaxation Training in the Management of Chronic Low Back Pain	93
Koskoff, Yale David and Sigrid Hagg. The Syndrome of Suffering: A Pragmatic Approach	111
Kotses, Harry and John P. Layh. Correlation Between Sample and Integrated Measures of EMG Activity	117
Nigl, Alfred J. A Comparison of Binary and Analog EMG Feedback Techniques in the Treatment of Low Back Pain	25
Rostow, Cary D., Robert C. Ware, Robert L. Breckenridge, and Hurst M. Hall. Standard and Experimenter-Mediated Electromyographic Feedback and Locus of Control	38
Rupert, Patricia A., Ken Dobbins, and Roy J. Mathew. EMG Biofeedback and Relaxation Instructions in the Treatment of Chronic Anxiety	52
Satinsky, David and Alexandra Frerotte. Biofeedback Treatment for Headache: A Two-Year Follow-up Study	62
Sweet, Jerry J. The MMPI in Evaluation of Response to Treatment of Chronic Pain	121
Wagner, Mark T. Controlling Nocturnal Bruxism Through the Use of Aversive Conditioning During Sleep	87
Werder, Dolores Soto and Joseph D. Sargent. Putting Self-Regulation to Work: Hourly Practice	107
Zieger, B., Ilene Zieger, and Linda Wetzel. Relaxation and Biofeedback—Its Effect on Intraocular Pressure and Its Possible Use in the Treatment of Primary Glaucoma: Three Case Studies	44

The Journal is sent at no additional cost to every current dues paid member of the American Association of Biofeedback Clinicians. AABC members should disregard any mailings which indicate otherwise.
